

Dear Parents,

Beginning this summer, as part of our continuous efforts to provide the best possible care to our campers and staff, Camp Shohola is partnering with CampDoc.com.

CampDoc.com is an electronic health record system for camps, and will help us consolidate and integrate camper health information into a centralized and secure location. Their system will give our doctors and nurses instant access to camper health information, a key component in providing quality patient care.

The security, confidentiality and privacy of your camper's personal health information will always be protected. Only Camp Shohola's health staff will have access to camper health information, and the CampDoc.com site is secure, encrypted and password protected.

In the past, we have used campmeds to pre-package prescription medications for camp. CampDoc will also now be filling this role and will do so at a lower cost to you.

You will receive a "Welcome E-mail" from CampDoc.com with information about how to complete your camper's health profile. We anticipate launching this new program on February 1st, in plenty of time to get your son's health information in order before camp.

- Click the link in this email to set a new password for your CampDoc.com account.
- Follow the instructions, and complete the health history for your camper. Alerts will appear for any missing required information.
- Upload any required documents to your CampDoc.com account.
- Return to CampDoc.com at any time to make changes/updates to your camper's health information before camp begins.

Please set register@campdoc.com as a 'safe sender,' to avoid accidental delivery to junk and spam folders.

We are excited to continually evolve – building safer, more productive and more efficient systems to create the best experience for you and your family while also cutting back on paper use.

We can't wait to see you this summer,

Duncan and Holly Barger
directors
