O I guess that was typed yesterday, How many 21 year old can't drive, Rugby Biggest class in Shohola history... next to riflery, Lee goes water skiing... without skies, Apache race event #20 waking up Alex Morales, Good Idea rowing in the lake bad Idea Row duty in the lake, Campfire, Banquet breakfast on the hill, the Shohola S and all of the other great memories of summer 2004.

Dedication

The Working Seniors and I have decided to dedicate this edition of the Argus to Mr. David Booth. Booth was this year's staff advisor to the editor. He has been an amazing help to the editor of the Argus this year, Matt Schnall. However, he is also a role model to many campers. He is responsible for keeping many of the traditions of Camp Shohola alive. He starts many of the chants that we hear every day in the dinning hall. If not for him the dining hall would just would not be the same.

Within a couple days of the beginning of the second session this year, Booth was already in the cabin encouraging us to pick an editor of the Argus. He wanted this edition to be amazing.

By Eric Lubben

Assistant-Editors Thoughts

This year was a great year at camp. Even though we had a very small group of people and lots of rain we still had fun. The green and white competition was very close and could have gone to either team till white's war canoe touched the raft. The green and white captains along with the four other working seniors were working hard all year to do what normal twenty people do with six. And Matt Schnall worked especially hard being white captain and Argus editor. I think the Argus is an important camp tradition. It brings the camper together to work toward one common goal of creating a good Argus. I would like to thank all the staff and campers this year for making this my best summer at Camp Shohola.

By Andy Edwardes

White Speech

We Won! And I am very proud of everybody and so is Christian. But over this brief two-week span of being your captain I have realized that color war is not as much about the winning as it is about the "we". This competition is not about one side or the other winning, it is about all of us gathering together to scream and yell for the color, either green or white, that we hold so close to our hearts. The camp, the "we", is what makes this competition so great and so fun for all of us.

During Green White events everyone on camp comes together to watch and cheer on their team. During the Olympics everyone gathers for the first green white event to watch those first races as the excitement begins. Then Mystery Marathon, were we all chase after bumper stickers like they were gold, because they have 4 points attached to them. Then with half of the season done we have the quizzes. Where all of a sudden

Dave Seskin's feet look a little more appealing, because rubbing them will get your team 50 points. Then the horse-show, where the riders get their chance to shine. Then we have the counselor hunt and swim meet. Then the excitement of color war ends when everyone gathers on the beach to the war canoes head for home, in the last moments of the Apache Race. During these event there is not any other constant then the mass gathering of campers to celebrate how much they love this camp and there team.

That is what Green White is about. Not winning the competition. It is about being together as a camp to compete and have fun.

It takes everybody to make this happen counselors and campers and thank you for making this such a great year. I would like to thank especially Mark for organizing the events and Rob for organizing the green team. I would also like to thank Senior Staff for their help in organizing the events. Also all of the counselors who took time out of their already busy schedules to organize. Also all of the campers on the Green and White teams for making this a great competition this year by showing up and yelling your all until you couldn't any more at every single event.

By Matt Schnall

Basketball

There are three different age groups of basketball classes. There is 11 under, 13 under and 15 under. The classes are run like team practices. We start out by stretching and running a few laps. After that we run a few simple passing and shooting drills followed by suicides. Once were done all that we play games of five on five. We practice like a team for Pike County basketball games where we go to other camps and play them or they come to are camp to play.

Our teachers and coaches are Ruben Ortiz, Ryan Levan, Josh Fleishman, and Jorge Quiles. They push us hard in class and make us do tough drills, so we are ready for Pike County. And even though they push us hard in class we still have fun playing games and practicing.

By Andy Edwardes

Maintenance

The main guy in charge of maintenance is Kamil. He does all the fixing around Camp Shohola. He shingles rooftops, fixes the ramps at the skate park, fixes anything around camp that is broken besides body parts. If you need anything to be fixed ask him because he is the man to get things done around camp.

By Anonymous

Canoeing

One of my favorite classes is canoeing because we paddle to Blueberry Island. We capsize a lot; it is very fun. One time we went in the river and called it extreme canoeing. The next month we had a class called extreme canoeing. You do a lot of capsizing. When we capsize to turn our self back over we put one boat on tome of another boat to get the water out. Then we flip the boat back to the right side. Shona and Reade are the counselors. They will help you a lot with turning and ways to paddle.

By Imlam Caping

Silk Screening

Silk Screening is good because it is fun to design clothes. Before I came to camp I never knew what silk screening was. I am really glad that they offer this class

You should take this class because you could individualize your clothes to fit your taste. Silk screening allows you to gain new talents. Silk screen is easy on my part I personally recommend that you try it.

By Tom Karam

Silver Shop

My favorite part about silver shop is that you can make really cool stuff out of silver. It's fun to make rings and chains. You can also make gold and silver rings. It's also fun because you get to use tools, and learn how to use them. That is why you should try silver shop.

By Anonymous

International Food Night

This year at international food night there wasn't as many countries as there has been in the past, but the food was great as usual. I especially enjoyed the Mexican food. I really like it, because I love Mexican food. I am looking forward to next year's international food night.

By Joe Polinger

Banquet

This years banquet was really well done. The food was great like always. We had turkey, stuffing, mashed potatoes, peas, nuts, mints,

gravy, fruit, cranberry and ice cream for dessert. After dinner the green and white captains made their speeches. We had the awards ceremony where campers got recognized for being most outstanding and most improved in their classes. And we ended with Argus dedication to and we remember so well.

By Andy Edwardes

Horseback Ridding

In riding class at Shohola, we learn tons of techniques on a horse. We learn to walk, trot, canter, and jump. We go on trail rides and sometimes we go swimming with the horses. We learn to go bareback too.

We also learn how to put on the saddle and bridal. Every 6th period we learn how to feed the horses and clean the barn. Horseback riding is great; I ride 6 periods a week.

By Matt Seskin

Web Design

Wed design is a great class. The point is to use HTML to design a web site. Madison is our counselor and teaches us HTML to help us create our web sites'. We learn tags, which gives the computer commands on how to display the web site. You can even come during your free time to work on your web site. Web design is my favorite class.

By Jon Helman

Windsurfing

Windsurfing is an awesome sport where you're free to do anything you would like to do. You can swim near your board, or try windsurfing, the best you can. You go really fast if the wind blows hard against the sail. I love windsurfing, and will take it next year if I get the chance too.

It's kind of scary when you get on the board the first time. It's also really hard to keep your balance. One of the hardest things to do is pull the sail out from under water. If you succeed in that then, you have to hold the sail so it does not fall back down. Overall its an awesome class that I won't forget.

By Lev Ioffe

Sailing

Sailing involves a sail, rudder, a mast, and boat. In sailing you learn how to sail, it's pretty easy. When we get to sailing class they show us how to sail. The first thing you learn is that if you the rudder left you go right and if you turn the rudder right you go left. Then the consolors show you how to put the centerboard in.

Then you swim the boat out. Then you pull the mast up and unfold the sail. Then you put the rudder in the water. You never want the sail to be parallel with the wind, always have it slanted a little. It is really fun to go sailing when it is windy. You can tell if its windy by looking at grass, trees or just looking to see if the lake has ripple on it. Sailing is quite easy but it is very fun.

By Jake Berman

Shohola S

The Shohola S is the most honorable, prestigious, and noteworthy award at Camp Shohola. It is given out at the final campfire to the best campers. The campers who win this award are always on time to class and give it there all. They don't curse. Show caring and kindness to all, will help when ever asked, and show great leadership qualities.

By Andy Edwardes

Babysitters

The babysitters here at camp Shohola are very well trained. They look after Adrian, Duncan, and Gales kids. They take the kids to the waterfront and basically all over camp so the little toddlers have fun while their parents are working. Without the babysitters camp would be very hard to run because the directors would always be getting interrupted and not a lot would be accomplished here at camp.

By Anonymous

Pottery

Pottery here is very fun and it is easy to learn with our pottery teacher Ann. She is a very kind woman. She always likes to help kids and she has the most practice out of anyone I have ever seen. She does not only have kids do pots on the wheel she has slabs to so kids who do not like to work on the wheel can still make something. She shows kids the different kinds of tools used in pottery. How to use the tools and when to use them. She teaches them to make a pot and encourages them to

practice even when they are discouraged. Pottery is fun in the sense that you could pretty much make any thing you want. You can mold the clay into what ever shape of form you desire.

By Kevin Garwood

Dining Hall

The dining hall is one of the most important places in camp. Its where we eat three times a day. But the dining hall wouldn't be such a great place if it were not for the cooks Marnita and Liz for making such great meals and the non-cabin staff for keeping the dining hall clean for every meal. and the dish room staff for giving us clean plates and utensils to eat with. Finally, Cathy Gibson-Smith who runs the dining hall. She has to order food and other things for the dining hall. Without all these people the dining hall wouldn't be such a wonderful place.

By Andy Edwardes

Laundry

The two ladies that do a very important job around camp are Olga and Yuliya. They do the laundry. A very smelly job around camp but in the end they make it smell clean. They wash your clothes and have them ready the next day along with three other cabins. They work very hard till late at night. Olga and Yuliya get up very early to start on the clothes also.

By Anonymous

Kayaking Trips

Every year at Camp Shohola the tripping staff takes the campers out on the river to put their Kayaking skills to the test. The more advanced kayakers conquer river in the class III range, while beginners can have their first white-water experience on the swift Lackawaxen. The most advanced can take the play boats out for a spin and surf them on the standing waves that appear on most rivers.

Kayaking trips range from a half day to a full three-day experience. The Delaware and Lackawaxen Rivers are the destinations for most of the one-day trips. These rivers offer an array of class I and II white-water. Many of the younger campers go out the first time on one of these rivers.

After a couple time on one of these river many campers choose the venture on to the more difficult Sacandaga River. This is a three-day trip during which the campers run the river 4 times, often stopping to surf the huge standing waves. “The Sacandaga trip was very fun. It really allowed me to work and my surfing and river running abilities,” said participant Matthew Schnall.

The Kayak tripping program is a very special part of Camp Shohola that allows the campers to have great experiences. The trips are open to all, from the most inexperienced to the most advanced kayakers. Trips allow Camp Shohola kayakers to take their Kayaking ability to the next level.

By Matthew Schnall

Banquet

This years banquet was really well done. The food was great like always. We had turkey, stuffing, mashed potatoes, peas, nuts, mints, gravy, fruit, cranberry and ice cream for dessert. After dinner the green

and white captains made their speeches. We had the awards ceremony where campers got recognized for being most outstanding and most improved in their classes. And we ended with Argus dedication to and we remember so well.

Red Barons Game

Red Barons game this year was fun. This was one of the most exciting games i have seen in my six years at camp. The barons were down for most of the game till the last innings when they began to make an amazing comeback but in the end they lost like always. Even though they lost we still had fun. We did a bunch of camp songs and did a few chants. Also we finally after about 15 tries got a wave across the stadium and back a few times. We also ran around the stadium till the police stopped us :(. And every one got over priced food and drinks. We ended the night by watching the fire works, which were awesome.

By Andy Edwardes

NHL Championship

Monday August 16, 2004 the upper camp NHL championship happened. There were a total of 4 teams to play in league this year.

Game 1- In the first game it was the Lubbenators came out victorious over the Green Trees. The Lubbenators goalie had shutdown Quin Trigg, which was the key to their success in the game. The game went into overtime in the fight for third place. In overtime, Sam Weinstock scored, the final goal, to seal the Green Tree's fate of a forth place finish.

Game 2- In the championship game there were goals, assists, saves, great plays, and injuries. It was a good game between the Fuzzy

Caterpillars and Le Chita Y Dormir. The game started out pretty bad for the Fuzzy Caterpillars, until they had a goalie switch. Paul Becker then was goalie for the Fuzzy Caterpillars. There was an injury on the pavement when Andy Edwardes was hit in the face and chipped his tooth. The Fuzzy Caterpillars then brought in Quin Trigg, who had 2 goals. There were 2 hat tricks in the game. Bryan Onley and Kevin Long both had hat tricks home for Le Chita Y Dormir. Le Chita Y Dormir's captain, Frenado Leposse, was ecstatic when his team won the championship.

By Kevin Long

Lower Office

The office will always be ready to help you in any situation. They are there for you if you need to take out money, if you need to talk to someone, also if you need to reach your parents for any reason necessary. When you go into the lower office the people you would usually see in there are Duncan, Adrian, Gale, Ali B., Sam and last but not least Holly. Gale is the person you want to see if you are interested in taking out money of your envelope or your camper account. Holly is the person you want to see if you are interested in purchasing anything at the wonderful camp store. Duncan and Adrian and Ali B. are the people you want to see if you are having any trouble with anybody in your cabin, if you have any concerns or anything in private you would like to discuss with someone. Because they will listen and try as hard as they can to make your summer here at Shohola the best summer you will ever have.

By Anonymous

Infirmary

The infirmary is a place you go when you get hurt, when you are sick, when you have a tick, or just when you think something is wrong. Helen will always be able to help you out no matter what the problem may be. She always takes her time making sure she cleans any wound or does anything to you carefully. She always has a funny personality no matter what the situation is to make you feel better.

By Anonymous

Archery

In archery we work on our stance and how we hold the bow along with our accuracy. We practice shooting from 15 yards mostly and sometimes 30 yards. We usually shoot five arrows then five more each turn. Some times we shoot balloons or hats. Most of the times we use recurve bows but some people are allowed to use compound bows if they are good enough. Booth is our teacher and reminds us to square our feet and helps us if we need help.

By Andy Edwardes

Camp Store

Two ladies that will always have smiles on their faces and will always be ready to help run the camp store. Gale and Holly run the Camp Shohola store. They have some really cool products and clothing ranging from toothpaste to sweatshirts. They have basically any necessity that you need during your time here at camp. The store got some really cool shorts with the Camp Shohola logo on the right bottom leg.

By Anonymous

Word War Three

In word war three class Mike Green teaches all the students the basics of argument. He explains the importance of ethos, pathos, and logos. With these three elements of the standard argument you can win any verbal confrontation, even if you are completely wrong and you know it. Word War III is awesome!
